NOTICE TO ALL REPAIRCENTER USERS

Re: Estimating Standards Updates

We've recently updated some existing estimating standards on the MPI Partners site to ensure that they continue to meet current estimating needs. On some of those, we have added a Best Practices section to help users better understand those concepts and requirements. Lastly, we have created three new estimating standards to help clarify existing policies and procedures.

Please visit the [Estimating Standards](#) section of MPI Partners to see the updates. The relevant standards are labelled **NEW** and **UPDATED**.

If you have any questions about the new and/or updated standards, please contact the Estimating Services department using the [Repair Shop Support Line](#).
