### **Re: MPI Partners Updates – Accredited Repair Information**

In October 2016, the Accredited Repair site was created to highlight important developments with the 2017 Light Vehicle Accreditation Agreement (LVAA) and Direct Repair program. Now that these initiatives are operational, all of the documents have been added to the MPI Partners site.

Effective August 1, 2017, you can access all accreditation and proper repair information throughout the Policies & Procedures, Accreditation, and Direct Repair sections of the MPI Partners site. This information will remain on the Accredited Repair site until August 31, 2017, at which time the site will no longer be available.

We've reorganized some sections of the MPI Partners site to help you locate the additional information. Please take some time to familiarize yourself with the new content and structure. If you have any questions about the information, please contact MPI's Accredited Repair department using the [Repair Shop Support Line](#), 1-855-882-4313, option 7.
