

Notice to All Accredited Repair Shops

Addition of Smart Solutions to Alternate Part Supplier Lookup Tool

Date published: June 17, 2026

Following consultation with the [Programs & Accreditation Consultation Committee](#), MPI has updated the **Alternate Parts Suppliers** listing on MPI Partners to include an additional supplier.

Field	Information
Supplier Name	Smart Solution Auto Electrical
Business Phone	204-795-3712
Website	N/A – contact via email at ssaewpg@gmail.com
Description	Supplier of automotive electrical components and repair services (e.g. fuse boxes and similar items)

Note: Please refer to MPI Partners for the most current supplier details.

Upon request by the [Technical and Parts Consultation Committee](#), the [Alternate Part Supplier Lookup Tool](#) was added to the Partners site in 2021 as a reference to aid repair shops in their part sourcing efforts. The Alternate Parts Suppliers list is intended to:

- Improve transparency regarding commonly used suppliers
- Reduce variability in sourcing outcomes and associated friction

Repair facilities are encouraged to use the **Supplier Issues Form** when concerns arise that MPI may be able to assist with. These include situations such as:

- Pricing discrepancies or concerns
- Availability or inventory challenges
- Shipping inconsistencies or unclear policies
- Difficulty validating supplier information

Use of the Supplier Issues Form enables MPI to:

- Review and assess concerns in a consistent manner
- Follow up with suppliers where appropriate
- Identify recurring or systemic issues that may impact multiple claims

MPI reviews any problems with suppliers brought forward by shops. With the appropriate privacy protections, submitted forms may be reviewed and discussed with the appropriate consultation committee.

If you have any questions about this notice, please email partners@mpi.mb.ca.
