Action Required - Long Expansion and Estimating Standards Updates

Date published: May 26, 2020

Long Expansion Updates

The Mitchell Estimating long expansion file is being updated to reflect current estimating needs and existing standards.

You will receive an email today with the long expansion file (.leg) and instructions for importing the file into Mitchell Estimating.

The update must be completed on your shop's computers to align with the current version of the long expansion. Please send an email to SRA@mpi.mb.ca once complete, and advise that you have successfully imported the new long expansion file on your workstations.

For assistance with this update, contact Mitchell's Technical Support at 1-800-448-4401.

Estimating Standards Updates

We've recently updated several Estimating Standards to help clarify existing policies and ensure they better reflect current estimating practices.

Visit the [Estimating Standards](#) section of MPI Partners to see the new and updated standards.

If you have any questions about this notice, please contact the Research & Estimating department using the [Repair Shop Support Line](#).
