

Notice to All Accredited Repair Shops

Estimating Standards – Updates

Date published: Oct 31, 2025

The [Marginal Repairs](#) Estimating Standard has been updated to streamline workflows and enhance clarity for the shop, estimator, adjuster, and customer.

Primary updates include:

- Max Repair Limit (MRL) – accuracy of calculation and clarity of communication has been improved.
 - The adjuster will still confirm the Max Repair Limit and provide the final repair decision on all potential total loss claims.
- Final Cost of Repair (FCOR) – is required on all Marginal estimates from shops to allow for an improved and timelier decision-making process.
 - The FCOR will be based on the approved estimate, repair shops do not need to contact the adjuster unless directed to do so.

The updated standards are identified with: ***draft for 30 days**

Refer to the **Revision History** section for a summary of the updates.

Please email partners@mpi.mb.ca if you have any questions about this notice.
