Estimate Advisor – Updates

Date published: July 16, 2026

As part of MPI's ongoing effort to make improvements and as shared during the [June 2026 Technical Committee meeting](#), new Estimate Advisor (EA) rules will take effect on July 17, 2026, to support the application of pre and post scans in alignment with the [Pre & Post Repair Diagnostic Scanning Estimating Standard \(ES\)](#). These rules will help improve estimate accuracy and reduce denials.

The new EA rules support compliance with the ES by checking:

- Eligible perils and model years
- Correct labour type, hours and values

If you have any questions about this notice, please email partners@mpi.mb.ca.
