

Notice to all Towing and Storage Vendors

Towing Mileage Rate Increase

Date published: September 3, 2026

As fuel prices and towing-related operating costs continue to remain elevated, MPI has completed a review of mileage rates for Rural Towing Master Service Agreement (MSA) partners.

Effective immediately, MPI is increasing the applicable mileage rates for all MSA-signed partners. This adjustment is intended to provide a sustainable enhancement to mileage compensation and replaces the temporary Fuel Surcharge allowance, which expired on August 23, 2026.

Please see below and refer to the updated Rate Card for revised mileage rates.

Southern Region	Current Rates	New Rates
Light Duty	\$2.75 / km	\$3.00 / km
Medium Duty	\$3.00 / km	\$3.25 / km

Northern Region	Current Rates	New Rates
Light Duty	\$3.70 / km	\$3.95 / km
Medium Duty	\$4.00 / km	\$4.25 / km
