Mitchell Connect Users – Estimating Profile Update

Date published: September 1, 2022

My Templates in MCE have now been updated to reflect two of the changes discussed in the <u>2021 Light</u> <u>Vehicle Accreditation Agreement Compensation Schedule Restated communication</u>.

See the following Estimating Standards for details:

- Glass Allowances Urethane Allowance (physical damage claims)
- <u>Labour & Materials Rates</u> Mechanical Specialty

These are the <u>only updated items that are currently eligible</u> for use. MPI will send further communication once the remaining updates become available.

The <u>Notice to all Mitchell Connect and MCG Users – Estimating Profile Update</u> provides details regarding retroactive payments.

Note that the Mechanical Specialty rate is not eligible for retroactive payment.

Please email <u>partners@mpi.mb.ca</u> if you have any questions about this notice.
