

Notice to all Light Vehicle Accredited Repair Shops

New Information Added to Vehicle Group List

Date published: April 23, 2021

To help repair shops calculate a more accurate RPS target, we added an updated vehicle group list to the [Realized Parts Savings Job Aid](#) in February 2021.

In addition to the updated vehicle list, we have engaged in continuous improvement initiatives in an attempt to improve the accuracy of the vehicle groups. As part of these initiatives, and to provide greater certainty for shops tracking their RPS, we added the following note:

- SUVs and passenger vans with permanently removed rear seats are considered a Truck Vehicle Type rather than a Car, SUV, or Passenger Van.

We have also replaced the following terms in order to distinguish between vehicle types:

- “Passenger Van” has been replaced with “Mini Van”
- “Cargo Van” has been replaced with “Large Van”
