Parts Autonomy – Level 2 Incentive

Date published: July 28, 2022

MPI will double the incentive for Level 2 from 25% to 50% starting this month to further recognize the exceptional performance of participants that exceed their RPS targets by 4% or more.

Incentives for last quarter ranged between \$134 to \$5,972 per shop with an average of \$1,690.

Claims submitted for payment July 1 or later will be eligible for the higher incentive. The incentive payment will be processed in October reflecting achievements for the quarter spanning July – September 2022.

Starting this month, you can expect to see the incentive calculation on your RPS scorecard to reflect the higher percentage if your shop performance is at Level 2.

Please refer to the [updated Parts Autonomy Guide](#) for further information. If you have any questions, please contact your SRA.
