Representative Parts

Date published: December 1, 2021

As part of Mitchell’s WorkCentre 21.4 release, Mitchell Cloud Estimating (MCE) will now display a representative part number rather than the previous ‘ORDER FROM DEALER’ message when a specific part number is not in Mitchell’s propriety database.

Representative parts from Mitchell must be verified prior to ordering. These part numbers may not be the correct application for the repair – call your supplier to confirm.

The representative part number is now shown on an estimate within square brackets, as shown below.
