

Notice to all Accredited Repair Shops

Restricted Estimate Handling – Lost Parts Autonomy Privileges

Date published: September 9, 2022

Updates have been posted to MPI Partners to assist Accredited Repair Shops that do not have Parts Autonomy privileges with managing workflows and communications with MPI.

Estimates being repaired by these shops fall under Restricted Estimate Handling and are identified as such on the [Issues Resolution](#) and [Repair Shop Support](#) pages of MPI Partners. A new [Restricted Estimate Processing](#) job aid has been added to the Forms and Job Aids section under Claim Administration.

Additionally, the Part Exception Form and the [Estimate Part Selection Estimating Standard](#) have been updated.

Please email partners@mpi.mb.ca if you have any questions about this notice.
