

Notice to All Accredited Glass Shops

Zero-Priced NAGS Glass Update

Date published: January 2, 2025

As part of its commitment to reducing administrative effort on glass claims and improving wait times, MPI is making changes to the Glass Repair First process to address a key industry concern.

What's New?

- Shops can now **self-add parts** and **update pricing** for **zero-priced glass** directly in MCG.
- This eliminates the need to contact the Glass Audit Unit (GAU) for these additions, but glass not published in MCG still requires contacting GAU.

Requirements When Adding Zero-Priced Glass

- Enter the glass price as **cost + 25%**.
- Upload the **supplier invoice** to MCG with the cost clearly visible to support the audit process after payment.

If you have any questions about this notice, please contact GAU@mpi.mb.ca.
