NOTICE TO ALL REGISTERED ACCOUNT HOLDERS

RE: Lock Coding Rate Change

With the increasing use of Sidewinder lock cylinders among vehicle manufacturers, the Automotive Trades Association, Manitoba Motor Dealers Association, and Manitoba Public Insurance have negotiated and agreed upon the addition of Sidewinder cylinder coding rates. Conventional lock-coding rates have also been reviewed and revised.

Changes to the Estimating Standard for lock coding will come into effect on August 17, 2015.

Initial Lock Coding – domestic and foreign	\$50.00
Each additional Lock Coding for domestic	\$34.40
Each additional Lock Coding for foreign	\$41.40
Coding Sidewinder ignitions	\$65.00
Coding Sidewinder door & trunk cylinders	\$55.00

Manitoba Public Insurance will not pay for on-site service charges, transportation charges or additional labour for rekeying charges. OEM locks will continue to be line discounted at 26% off the list price.

For Repair Center Users only:

To accompany this change, the Manitoba Public Insurance Compliance Utility rules will be updated to align with the new rates. In order for you to apply the updated repair lines to your estimates, an updated Mitchell Estimating (Ultramate) Long Expansion will need to be installed on your system. You will receive a separate communication about this update soon.
