

Notice to all Accredited Repair Shops

# Light Vehicle Accreditation Agreement Training Requirements

**Date published:** August 10, 2021

As outlined in Section 6 of the Light Vehicle Accreditation Agreement (LVAA), shops are to meet training requirements published on the [MPI Partners website](#). MPI recognizes not all shops have been able to maintain I-CAR Gold Status throughout the last 18 months for various reasons. MPI has committed to review LVAA training requirements through the consultative model in the fall of 2021. In light of this review, a repair facility's accreditation status will not be impacted should they not meet the LVAA training requirement at this time, provided the shop completes the following:

- Technical staff maintain 6 hours of I-CAR Gold Class maintenance training per year.
- Technical staff maintain welding certifications (subject to course availability).

Following this review, updated training requirements will be communicated to all repair shops, with advance notice prior to an effective date. If you have any questions about this notice, please contact the Accredited Repair department.
