MPI Parts Business Rules – Update

Date published: August 11, 2023

As discussed in the [Technical & Parts Consultation Committee minutes](#), the exhaust and outer body sheet metal exclusion has been removed from section **2.2 Prohibited Alternative Parts** of the [MPI Parts Business Rules](#). This change, in conjunction with shop Parts Autonomy privileges, will reduce administrative efforts for parts previously included under this exclusion.

The rules are identified with: ***draft for 30 days** on [MPI Partners](#).

Please email partners@mpi.mb.ca if you have any questions about this notice.
