

Notice to All Repair Shops and Inspection Stations

MPI Temporary Third Party COVID-19 Pandemic Policy

Date published: November 23, 2021

In an effort to reduce the risk of transmitting COVID-19, MPI will implement a [Temporary Third Party COVID-19 Pandemic Policy](#) effective January 3, 2022.

This policy applies to:

- All third-party individuals including the visiting public (for example, customers), repair shop staff, contractors and consultants **attending an MPI location** for interactions where six-foot distance or a plexi-glass separation are not reasonable or practical.

In these cases, contractors, consultants, repair shop staff and visitors will have two options before entering MPI premises:

- 1) Share proof of full vaccination, or
- 2) Provide proof of a negative COVID-19 test result taken in the 48 hours prior to the interaction. For this option, rapid tests will not be administered at MPI locations. Individuals will have to purchase their own test kits.

Note: MPI will deny service or access to premises to individuals who do not provide proof of either option unless accommodation is required as recognized by the Manitoba Human Rights Code.

More information about the third party pandemic policy will be available on mpi.mb.ca shortly.

If you have any questions about this notice, please submit them via email to partners@mpi.mb.ca.
