

Notice to all Accredited Repair Shops

# Parts Program Enhancements

Date published: January 28, 2022

Two enhancements have been made to the Parts Program: a new aftermarket parts supplier and additional opportunities to increase Realized Part Savings (RPS) have been added. RPS expectations will not be increased as a result of these enhancements.

**Plastic Liners** – MPI will no longer restrict aftermarket (AM) liners from the Mitchell Alternate Parts Program (MAPP). This is due to improved quality and consistency with aftermarket (AM) liners, and the improved workflows that the Parts Autonomy Program affords shops.

**Adhesive Nameplates / Emblems** – MPI is pleased to announce Adhesive Templates Canada (ATC) has been added as a MAPP supplier. ATC is an aftermarket provider of pre-cut adhesive templates used to reattach OEM nameplates and emblems.

See the new [Nameplate Adhesive](#) estimating standard for additional details.

ATC can also be found on the [Alternate Parts Suppliers](#) lookup tool.

We are working with Mitchell to make these listings available as soon as possible, and we will send out a confirmation once they have been added.

If you have any questions about this notice, please email [partners@mpi.mb.ca](mailto:partners@mpi.mb.ca).
