# Parts Program Trial Results - Unrestricted MAPP Pricing

**Date published:** January 24, 2023

On [June 10, 2022](#), MPI announced the extension of the [Unrestricted MAPP Pricing Trial](#) period to December 31, 2022. Following a review of the data collected during this trial, there has been a positive response from both repair shops and parts suppliers to the market pricing model and increased availability of alternate parts. As a result, MPI will not reinstate pricing restrictions for suppliers participating in the Mitchell Alternate Parts Program (MAPP).

The OEM less 26% maximum price requirements, outlined in section 2.1 of the MPI Parts Business Rules, will be removed from the document available on [mpipartners.ca](#) in the near future. There are no impacts to MPI estimate workflows and users do not need to change any settings.

Please email [partners@mpi.mb.ca](mailto:partners@mpi.mb.ca) if you have any questions about this notice.
