NOTICE TO ALL REPAIRCENTER USERS

Re: Action Required – Updates to Long Expansion and Estimating Standards

Action Required – Long Expansion Update

The Mitchell Estimating long expansion file is being updated to ensure that estimate line items better reflect current estimating needs and existing standards.

You will receive an email tomorrow with the long expansion file (.leg) and instructions for importing the long expansion file into Mitchell Estimating.

The system update must be completed on each of your shop's computers **within 10 business days from tomorrow** to align with Manitoba Public Insurance's version of the long expansion. Your Shop Relationship Advisor will follow up with you to verify that you have installed the most current long expansion file.

For assistance with this update, contact Mitchell's Technical Support at 1-800-448-4401.

Updated Estimating Standards

We've recently updated the Estimating Standards on the MPI Partners site to help clarify existing policies, and to ensure they better reflect current estimating practices.

Visit the [Estimating Standards](#) section of MPI Partners to see the new and updated standards (password required).

If you have any questions about this notice, please contact Estimating Services using the [Repair Shop Support Line](#).
