

NOTICE TO ALL VEHICLE INSPECTION STATIONS

Re: Vehicle Safety Circulars on MPI Partners

Starting soon, Vehicle Safety circulars will be posted to the [MPI Partners website](#).

MPI's Vehicle Safety department previously mailed out circulars containing news and reminders on relevant polices for vehicle inspection stations.

Moving forward, new circulars will be available in a "Vehicle Safety" section under Light Vehicles & Others > Notices to Trade.

When a new circular is available, you'll receive an email with a link to access it.

Watch your email for the upcoming circular on Emission Control Systems.
