

Notice to All Accredited Repair Shops

Update for Hail Estimate Appointments

Date published: December 8, 2023

MPI is offering hail estimates on Fridays at all service centres across Winnipeg to meet demands of the estimating backlog as a result of the labour interruption and inclement weather throughout this year.

Customers with lease returns, trade-ins or DR qualifying perils who also have hail damage, can attend a DR shop for a direct repair estimate following the normal DR process by using Mitchell to request the 99 appraisal assignment. Repair shops are required to email partners@mpi.mb.ca with the requesting claim number and reason.
