Eligible for repair when:

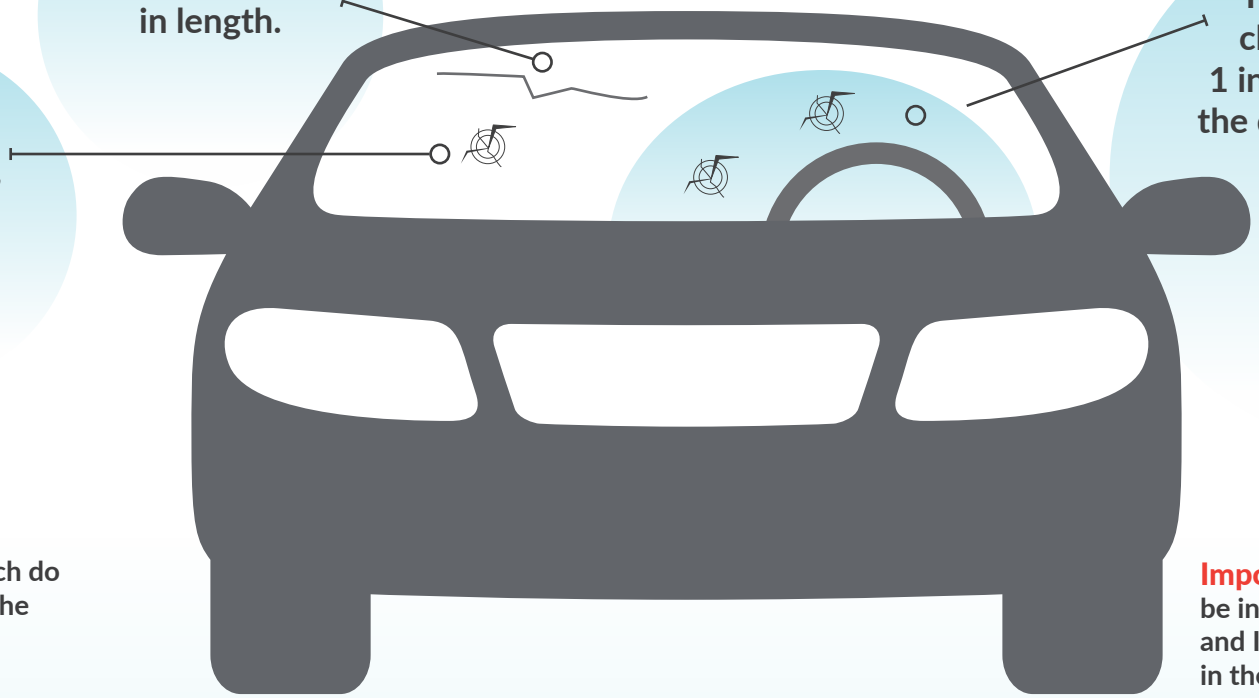
MANITOBA PUBLIC INSURANCE

Crack is up to 12 inches in length.

There are 4 or less chips, greater than 1 inch.

There are 2 or less chips, greater than 1 inch, in the sweep of the driver's wiper blade.

Requires Windshield Repair Waiver.



- Chips less than 1 inch do not count towards the chip repair limit.

Important: Windshield repairs must be in compliance with Vehicle Safety and Inspection Regulations as stated in the Manitoba Highway Traffic Act.

Not eligible for repair when:

- Both ends of a crack meet the glass edge.
- The damage is a previously failed repair.
- The damage is over a heated windshield element.
- The damage is over any sensor or camera system.
- More than 4 chips are greater than 1 inch (including previously repaired).
- There is pre-existing damage (such as a long crack) that doesn't qualify for repair.
- Refer to MPI Partners site for more details.
